? Madera Ranch — landowners against
why forgone (CALFED) conclusion to implement
S Ritchie — land purchase only

- Anthony — How far can Cong. go p/m proceed before landowner buy-in.
 - Principles
 - Impediments to potential projects
 - Pilot Project

• Carl H. — CMARP — Gr Wat. Conceptual Model

Larry Smith USGS — "20 Mil. \$ to facilitate"

Dan K. "What is currently spent on GW monitoring"

• Status current Projects

- Madera Ranch — Dick Whitsit (USBR) — Landowner proposal
6 mo study (comp) test holes, geology (some data, not enough)
13600 acres; 3500 acres (ecol. basin)
Owner wants to either sell or ^{have lands} developed (for ag.)
USFW sees property as a ^{Potential} reserve Yld 75K (Total 500 400)
- Kern Co — Bank
KWB. DWR "Over-analyzed/studied"
ESA — real obstacle (Madera Ranch potential)

- RWB (cont)

700 TAF Rechg since 95'

Success attributed to local control

- SJ Co / EBMUD John P.

- In starting block (Many unresolved issues)

(east side of valley)

Has storage space (due to overdraft)

Has a gr. Wat Export Ordinance (to prevent misuse)

However, does allow permitting for export

AS, not all interests in support of Cong. Pgm

yield 50K TAF / yr in dry yr

- AMERICAN BASIN / - N. Sac Int Air port

K Kelly - SWP supply / Demonstration of SWC by
Voluntary basis

- Add Infrastructure

- In view ops

Definition of Terms:

Gr Wat Banking - import / Export in & out of basin

Conjunctive Use:
